1. The construction of facilities to connect the pump at Well No. 5 to the existing water distribution system in accordance with the plans and specifications heretofore submitted to this Board and hereinafter approved is consistent with State and Local Guidelines adopted pursuant to the Environmental Quality Act and that the impact of the proposed installations will not be substantial and that the Board does hereby find and determine that it constitutes a categorical exemption under State Guidelines and under the Local Guidelines adopted by the District inasmuch as it consists of a connection to existing facilities, which will have substantially the same purpose and capacity as the existing facilities.
